First Aid ABCs If victim is facedown, gently roll victim onto their back. Place one hand on the back of victim's neck and other on hip,... Open victim's airway using head-tilt (even if you suspect back or neck injury): Use a head-tilt to open the airway.

First Aid ABCs | HowStuffWorks

Access Free Abc First Aid Guide

ABC in first aid is a list of important things that first aiders must check when dealing with a patient, including airways, breathing and circulation. ABC is part of what St Johns Ambulance calls DR ABC, a general set of first aid steps.

What Is ABC in First Aid? | First Aid

The ABC of first aid is a mnemonic

Access Free Abc First Aid Guide

designed to help people remember how to respond to an emergency situation in which someone is injured. There are many other mnemonics and variants, but it is probably the most useful one for lay people to remember. The letters stand for Airway, Breathing, and Circulation, also referred to as the vital signs.
