The Byte Shop. Paul Terrell started the Byte Shop in Mountain View, California in December 1975. By January, he was approached by individuals who wanted to open their own stores. He signed dealership agreements with them, whereby he would take a percentage of their profits, and soon there were Byte Shops in Santa Clara, San Jose, Palo Alto, Fresno, and Portland, Oregon.

### Paul Terrell - Wikipedia

The first unit is the bit, and the second is the byte. The bit is a one or a zero. It comes from the physical components of the computer, which either have to be energized (one) or not (zero) in order to store data. A byte is a set of eight of these bits. It's no too hard to keep those distinctions clear, but the problem is that a bit is ...
