Experimenting With Babies 50 Amazing

"Experimenting With Babies: 50 Amazing Science Projects You Can Perform on Your Kid illuminates how children acquire skills such as walking, talking and sharing, and how they develop, physically and emotionally, during the first 24 months of life. Shaun Gallagher pored over journal articles, most of which were published in the last decade, to find experiments that didn't require special equipment, could be performed easily and over a short period of time, and that had a 'clear takeaway ...
