Bhabha Atomic Research Centre (BARC)

The Atomic Energy Regulatory Board's mission is to ensure the use of ionising radiation and nuclear energy in India does not cause unacceptable impact on workers, members of the public and to the environment. Users can find detailed information on the Board's activities, regulations, apex committees, public grievance, etc.

Website of Bhabha Atomic Research Centre - Government of India

Homi Bhabha, for example, urged the Indian government to approve an atomic bomb program, arguing in one speech that "atomic weapons give a State possessing them in adequate numbers a deterrent power against attack from a much stronger State." Indian Prime Minister Lal Bahadur Shastri was opposed to the bomb, but Bhabha convinced him that India could use nuclear weapons for peaceful purposes, such as engineering.
