Early 1949-1950 MG TD, with closed disc wheels as shown in the workshop manual. Because of the use of the larger frame the body became 5 inches wider. Although the body increased by 5 inches, only one inch actually found it's way into the cockpit so there is an indiscernible difference in the seating width.

MGTC Electrical Circuits 27 December 2018 Version 1.1 Page 1 Introduction Background I put this paper together as a project to educate myself on the individual electrical circuits used on the MGTC. This was prompted by the number of times I was challenged to track down a problem and was faced with what I felt was poor documentation.
