Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

During Win96's design and creation, its author worked closely with the PRO-96's development team. Due in part to this relationship, Win96 allows full control of all known PRO-96 features, including several that are not documented in the scanner's manual. These "extra" features include, (but are not necessarily limited to):
