Step 1, Purchase all the necessary parts. Depending on whether you are upgrading to an aftermarket head unit or simply replacing the old one with another OEM (original equipment manufacturer) unit, you may have to have some additional hardware. This could include things such as a dash kit, wiring harness, or antenna adapter. [1] X Research sourceStep 2, Unplug your battery terminals. You do not want the system to have live power while you are making your connections. Turn the vehicle off and ...
