These Nielsen Designated Market Area (DMA) codes are used in a variety of Ooyala features.

DMA Codes | Ooyala Help Center

The DMA Code sets the standard of conduct for the industry and is the code to which all DMA members must adhere, in addition to all legal requirements.

The Code The Code - DMA

The DMA Code is an aspirational agreement to which all DMA members and their business partners must adhere. It aims to promote one-to-one marketing as a true exchange of value between your business, looking to prosper, and your customer, looking to benefit - and provides you with the five clear principles that will guide you to achieve this, and against which your conduct will be measured.

DMA (Designated Market Area) regions are the geographic areas in the United States in which local television viewing is measured by Nielsen. The DMA data are essential for any marketer, researcher, or organization seeking to utilize standardized geographic areas within their business. A DMA region is a group of counties that form an exclusive geographic area in which the home market television stations hold a dominance of total hours viewed.

Direct memory access (DMA) is a feature of computer systems that allows certain hardware subsystems to access main system memory (random-access memory) independent of the central processing unit (CPU).. Without DMA, when the CPU is using programmed input/output, it is typically fully occupied for the entire duration of the read or write operation, and is thus unavailable to perform other work.
