The Law Of International Organizations

International law - International law - International organizations: A major difference between 19th- and 21st-century international law is the prominent position now occupied by international organizations. The size and scope of international organizations vary. They may be bilateral, subregional, regional, or global, and they may address relatively narrow or very broad concerns.

International law - International organizations | Britannica

International organizations are playing an increasingly important role in the international legal order. They are active in virtually all fields of human activity, they regularly conclude international treaties and continuously interact with other actors of international law. Nowadays, they wield growing normative powers. For those working for or dealing with international organizations, a ...

Law of International Organizations | UNITAR

The Law of International Organizations will examine the principal issues regarding organizations whose membership is that of states. This examination will scrutinize the legal personality and powers of such institutions; the manner in which the states parties as members participate; enforce decisions through mechanisms; dispute settlement; peace and security undertakings.

International Organizations (1970) 44 British Yearbook of International Law 111. José E. Alvarez, International Organizations as Law-makers (OUP2006) The European Convention: The Secretariat - Working Group III on 'Legal Personality' (Brussels, 13 June 2002) SN2775/02. Topic 3 . A. Responsibility of International Organizations

LB 4032: Law of International Organizations

If those activities are governed by international law, we speak of an international organization proper, or at least of an intergovernmental organization. If those activities are, however, governed by some domestic law, we usually say that the organization in question is a non-governmental organization; examples include such entities as Greenpeace or Amnesty International.

Meaning and scope of international organizations

An Appraisal of the "Copy-Paste Approach", International Organizations Law Review, vol. 9, 2012, pp. 53-66. C.F. Amerasinghe, "Comments on the ILC's Draft Articles on the Responsibility of International Organizations", International Organizations Law Review, vol. 9, 2012, pp. 29-31.

Articles on the Responsibility of International Organizations

¹ The law of international organizations can be divided into primary and secondary law, the primary law being the founding treaties, sometimes characterized as the constitutions of the organizations. Secondary law derives from primary law, in that its normative effect formally depends upon a primary source of international law, ie a treaty provision allocating this competence to the organization.
