you are now.

You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

The Oracle of Oil an entertaining and revealing look into Hubbert's personality and motivations. As a conservative, I read it as a cautionary tale on the dangers of centralized control of the economy. Hubbert was a Texas native, schooled at the University of Chicago. By 1931, he was teaching geology at Columbia University.
