Transpiration Lab 9 Answers

Transpiration Introduction Most of the water a plant absorbs is not used for a plant's daily functioning. It is instead lost through transpiration, the evaporation of water through the leaf surface and stomata, and through guttation, which is the loss of water from the vascular tissues in the margins of leaves. ... AP Biology Transpiration Lab 9 help??!? | Yahoo Answers

82.3 g - 73.3g = 9 grams lost on Day 1 . 73.3 - 64.2g = 9.1 grams lost on Day 2. 64.2 - 54.3 = 8.9 grams lost on Day 3. The density of water is about 1.0g/ml so 9 ml was lost on the first day, 9.1 ml was lost on the second day and 8.9 ml was lost on the third day. The rate of transpiration is 9ml/day.
